Notes: SFY is state fiscal year. Amounts shown here reflect the most recent information available in cases in which data for a given year were published and then updated in a subsequent report.

The all federal and state funds category reflects amounts from any source. The state general funds category reflects amounts from revenues raised through income, sales, and other broad-based state taxes and excludes federal funds. The all state funds category reflects amounts from any non-federal source; these include state general funds, other state funds (amounts from revenue sources that are restricted by law for particular government functions or activities, which for Medicaid includes provider taxes and local funds), and bonds (expenditures from the sale of bonds, generally for capital projects and excludes federal funds).
